Filtering Surface	5 Cortanlge Filter		
Easy Change Main Broom	Standard		
DRIVE	Front Wheel		
TRANSMISSION	ELECTRICAL		
MIN. U-TURNS BETWEEN TWO WALLS	2270 MM		
POWER FILTER VIBRATOR	STANDARD 24V 90W		
FILTRATION SURFACE	4 SQM		
FLAP-LIFT: PEDAL	Standard		
HOUR COUNTER	Standard		
BATTERY CHARGE INDICATOR	Standard		
CONSTRUCTION	STEEL		
CONTAINER CAPACITY	55L		
SERVICE AND PARKING BRAKE	Standard		
HIGHLY ELASTIC RUBBER WHEELS	Standard		
MAX LENGTH	1150 MM		
MAX WIDTH	800 MM		
HEIGHT	1210 MM		
WEIGHT (EMPTY, WITHOUT BATTERIES)	186 KGS		
WEIGHT (WITH 2 BATTERIES, 12V 157AH):	262 KGS		
MOTOR: SHAKER	VOLT: 24V	WATTS: 90W	
MOTOR	SUCTION	VOLT: 24V	WATTS: 350W
MOTOR:	MAIN	VOLT: 24V	WATTS: 350W
MOTOR: TRACTION	VOLT: 24V	WATTS: 800W	
MOTOR: SIDE BRUSH	VOLT: 24V	WATTS: 60W	
WATTS (TOTAL - PEAK)	1,67 KW		
NOISE LEVEL	73,5 DB		

SWEeper FEATURES

The new ASC P2 sweeper is the ultimate solution the savvy buyer that wants to minimize their investment in a rider sweeper yet be assured that they are buying best possible quality available at this price level.

Whether you are sweeping a warehouse, carpark or factory this entry level P2 models offers exceptional sweeping performance great dust control. This model is designed to sweep indoor and out and in limited spaces where maneuverability is key. Its unique handle bar system is designed to enable the shortest possible turning circle & clean in areas previously exclusive to walk behind sweepers.

The machines seat assembly is designed for small and large operators alike ensuring all staff can now use the machine without conventional seat limits. The ASC P2 is ideal for use in narrow production areas, warehouses up to 4000 square meters and commercial facilities that require very fast sweeping.

The ASC Model P2 is a COMPACT sweeper with a 65cm central brush and a 850mm sweeping path. The machine is built on a heavy duty steel chassis for long term life expectancy which will last years longer than conventional machines in this size class.

The refuse hopper has a capacity of 55 litres ensuring 1 to 2 hours continual use before emptying. The P2's exceptional dust control capacity is delivered by its via 5 polyester cartridge Long Life dust filters delivering a massive 4 m2 of dust filtering surface. The machines front mounted dashboard control features means the sweeper is easy to use minimizing operator training. Simple toggle switches activating the vacuum & brushes ensure very little training is required to operate the machine.

The machine comes delivered with High capacity zero maintenance GEL batteries eliminating never ending battery failures.

Work autonomy is 2 hours.
